

QDialog

```
classDiagram
    Card --> QDialog
```

The diagram illustrates a class hierarchy where 'Card' inherits from 'QDialog'. 'QDialog' is represented by a white box with a thin gray border at the top. 'Card' is represented by a gray box with a thick black border at the bottom. A dark blue arrow points vertically from the top of the 'Card' box to the bottom of the 'QDialog' box, indicating the direction of inheritance.
